

***Testo degli emendamenti italiani accolti e inseriti nella dichiarazione finale dell'Assemblea parlamentare CEI-INCE svoltasi a Sarajevo il 30 e il 31 maggio 2016***

*...Omissis...*

***Recommending*** that the CEI promote the development of a transport and connectivity infrastructure master plan for the Alpine-Adriatic-Balkan area, also in coordination with the European Union and particularly the coordinators of the corridors Trans-European Transport Network (TEN-T)" (Italy amendment)

***Also expresses*** awareness that West Balkan countries aspiring to join the European Union are expected to approve and implement convincing reform programs in order to meet EU accession criteria and to develop effective bilateral and multilateral cooperation among themselves and with all EU member countries, in a spirit of communality which is typical of the European common home;

***Welcomes*** the renewed engagement of the European Union and of such important multilateral programs as the Berlin Process in the Western Balkans. These policies will be extremely useful also in view of the pre-accession actions they envisage. Such policies, the implementation of which should be speeded up and focused mainly on connectivity (power grids, road and railway infrastructure, maritime transport and ports, telecommunications) will require convincing EU financial support and equally convincing general program sharing by all States involved;

***Believes*** that, for the purposes of the above mentioned shared programs, the overall approach of the connectivity master plan (power grids, road and railway infrastructure, maritime transport and ports, telecommunications) should be promptly defined for the Alpine-Adriatic-Balkan area and that the countries involved, also with the technical and operational support of the CEI Secretariat and European corridor coordinators, should promptly submit to the European Commission a joint draft master plan for co-funding purposes;" (Italy amendments)

*... Omissis....*

***Lastly,*** pledges to focus on the Northern and Baltic region of the CEI, with respect to the forthcoming working sessions of the parliamentary dimension. (Italy amendment)
